

Awareness

Is For Everyone Who Works in a Building

Occupant awareness can reduce utility costs by 5 to 10%

Whether you work in an office, health care facility or school, you can do your part to create a better planet. The Saskatchewan Environmental Society Energy Awareness program is designed to help you make a difference by conserving energy at work, at home, and on the move.

The Energy Awareness program will help you to understand how energy is used in the workplace and how to change your habits to reduce overall energy consumption at work.

A Better Planet Begins with *You*

- Source: Office Plug Load Field Monitoring Report, CEC, October 2008.
- CA study of 47 buildings that metered 7,000 plug load devices.
- Business equipment = paper shredders, adding machines, portable lamps, and coffee makers.

Two ways to train your staff

1) Energy Awareness seminar:

A two-hour seminar explaining how workspace occupants use energy

Number and length of events are negotiable

2) Energy Awareness dialogues:

4-5 targeted behaviour changes, chosen specifically for your facility/staff

On-site dialogues with individual staff to help create behaviour change

Follow-up materials in the form of statistics, prompts, commitments, and other tools to help create behaviour change

Our Services

Easy methods to reduce consumption

A reference manual of helpful information to refer to at work and at home

Tools specifically tailored to help your team save energy and water

On-site seminar/dialogue

Your Edge

Learn how to be more energy efficient in the use of:

- Computers, printers and copiers
- Kitchen and lunch room equipment
- Heating and air conditioning
- Lighting

The Benefits

Save money now and into the future

Good for the environment

Improved business image

Invest in your business

Support your team

Know-How

Spot energy waste

Water use and energy

Travel and saving energy

Energy Awareness Training

"This information will be useful at work and at home - knowledge I will pass on to others."

*Northwest Catholic School
Division Building Operator*

"The presenter was knowledgeable on all of the topics, very approachable and interesting."

Sunrise Health Region Employee

"Very good awareness education and tools to address common energy wasters"

City of Saskatoon Employee

"Made me realize I could do more"

*Saskatchewan Research Council
Employee*

All employees can participate: administrative, support, cleaning, coordinators, teachers, managers, executives, and maintenance!
